INDUSTRIAL VISUAL SAFETY INSPECTION AUDIT REPORT

|                                          |                                |
|------------------------------------------|--------------------------------|
| Inspection ID: INS-20261007-59EBCC       | Date/Time: 2026-10-07 07:54:48 |
| Equipment Type: Industrial Angle Grinder | Model Version: 0.1.0           |
| Operator: Factory-QA-Robot               | AI Confidence: 90.6%           |

OVERALL RESULT: PASS — COMPLIANT

## VISUAL EVIDENCE ARTIFACT

## SAFETY COMPONENT VERIFICATION MATRIX

| Component                   | Mandatory | Detection Status | Confidence | Severity | Audit Finding                                    |
|-----------------------------|-----------|------------------|------------|----------|--------------------------------------------------|
| Protective Wheel Guard      | YES       | PASS             | 98.2%      | NONE     | Protective Wheel Guard verified in position.     |
| Auxiliary Side Handle       | YES       | PASS             | 98.7%      | NONE     | Auxiliary Side Handle verified in position.      |
| Power Cable & Strain Relief | YES       | PASS             | 98.9%      | NONE     | Power Cable & Strain Relief verified in posit... |
| Safety Trigger / Switch     | YES       | PASS             | 98.2%      | NONE     | Safety Trigger / Switch verified in position.    |

## INSPECTION FINDINGS & REQUIRED ACTION

|                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>Root Evaluation:</b> PASS — All mandatory safety components detected and spatially verified on Industrial Angle Grinder.       |
| <b>Recommended Action:</b> Equipment satisfies configured visual safety requirements. Proceed with standard operational workflow. |
